

## Wildlife – Practices Relating to Wildlife Management and Conservation

Advice and Technical Assistance	Pond
Backyard Wildlife Management	Prairie Restoration and Management
Brush Piles	Prescribed Burning
Cave Management/Protection	Prescribed Grazing
Conservation Cover	Pumping Plant for Water Control
Conservation Crop Rotation	Recreation Trail and Walkway
Contour Buffer Strips	Reforestation
Contour Stripcropping	Residue Management
Cover and Green Manure Crop	Riparian Forest Buffer
Critical Area Planting	Seed and Plant Sources
Cross Wind Stripcropping	Shallow Water for Wildlife
Cross Wind Trap Strip	Soil Evaluation
Dam, Multiple-Purpose	Spring Development
Declining Habitats, Restore/Manage	Stream Corridor Management
Dike	Stream Stabilization & Restoration
Disking	Strip Disking
Early Successional Habitat	Structure for Water Control
Edge Feathering	Travel Lanes
Emergency & Disaster Recovery	Tree & Shrub Establishment
Endangered Species Management	Urban Wildlife Management
Equipment on Loan	Use Exclusion
Fence	Volunteer Labor
Fescue Conversion	Watershed Management
Field Border	Wetland Creation
Filter Strip	Wetland Development
Food Plots	Wetland Enhancement
Forage Harvest Management	Wetland Management
Forest Management	Wetland Restoration
Forest Site Preparation	Wildlife Corridors and Travel Lanes
Forest Stand Improvement	Wildlife Damage Control
Forest Thinning	Wildlife Food Plantings
Forest/Woodland Openings	Wildlife Habitat Management/Upland
Grade Stabilization Structure	Wildlife Habitat Management/Wetland
Grass Establishment	Wildlife Watering Facility
Grassed Waterway	Windbreak/Shelterbreak
Grazing	Woody Edge Enhancement
Heavy Use Area Protection	Woody Root Pruning
Hedgerow Planting	Woody Vegetation Control
Herbaceous Vegetation Control	
Herbaceous Vegetation Establishment	
Herbaceous Wind Barriers	
Livestock Exclusion	
Native Grass Establishment	
Native Grass Management	
Native Plant Establishment	
Naturescaping	
Overseeding Lespedeza	
Pasture & Hayland Planting	
Pasture and Hayland Management	

For more information and sources of assistance, note the practices you are interested in and look them up alphabetically in the **Practice** section.

**Soils** - Practices relating to soil conservation.

**Water** – Practices Relating to Water Resources Management and Conservation

Advice and Technical Assistance	Reinforced Stream Crossing
Alternative Livestock Watering	Residue Management
Animal Composting	Riparian Forest Buffer
Animal Waste Management	Sediment Basin
Buffer Strips	Sewage Treatment
Composting Facility	Shallow Water for Wildlife
Conservation Cover	Sinkhole Treatment
Conservation Crop Rotation	Soil Evaluation
Constructed Wetland	Spring Development
Contour Buffer Strips	Stormwater Management
Contour Farming	Stream Stabilization & Restoration
Contour Stripcropping	Streambank Planting
Cover and Green Manure Crop	Structure for Water Control
Critical Area Planting	Terrace
Dam, Floodwater Retarding	Tree & Shrub Establishment
Dam, Multiple-Purpose	Trough or Tank
Dike	Use Exclusion
Diversion	Volunteer Labor
Drinking Water Supply	Waste Management System
Dry Hydrant	Waste Storage Pond
Emergency & Disaster Recovery	Waste Storage Structure
Erosion Control Structures	Waste Treatment Lagoon
Farmstead Evaluation	Waste Utilization
Fence	Water & Sediment Control Basin
Field Border	Water Pollution Control
Filter Strip	Watershed Management
Grade Stabilization Structure	Well Decommissioning
Grass Establishment	Wetland Development
Grassed Waterway	Wetland Restoration
Hazardous Materials Management	Wildlife Habitat Management/Wetland
Heavy Use Area Protection	Wildlife Watering Facility
Herbaceous Vegetation Establishment	Willow Staking
Integrated Crop Management (ICM)	
Irrigation System-Sprinkler	
Irrigation System-Surface	
Irrigation System-Tailwater Recovery	
Irrigation Water Management	
Lagoon	
Livestock Exclusion	
Livestock Watering	
Livestock Waste Management	
Manure Management
